

## WORKSHEET 3: THE RIVER BEACH

### AIM

- ◆ To investigate different aspects of the riverside environment

Task 1 Find a technician and collect data from the data loggers. Fill in the table below.

	Reading	Units
Water Temperature		
Air Humidity		
Humidity		
Light		
Wind Speed		

Task 2 You will be testing a water sample in the laboratory. The sample of water will be collected from the river by a member of staff.

How much water would be required to ensure you have enough for testing?

\_\_\_\_\_ mls

Task 3 Describe two different craft on the river? (Hint: you may like to make a sketch or take a photo).
